Curriculum Vitae – Tomáš Beňák

Date of birth: 18.12.1987
Domicile: Dražov 29, Stanovice 362 13
Temporary residence: Praha, Libeň, Pátkova 2136/3, 182 00
Email: benak.tomas@gmail.com
Phone number: 602 799 992

Professional experience

- 15.11.2011- 31.12.2013:
    - employer: COMPAREX CZ s.r.o.
    - job title: Software Developer
    - responsibilities:
        - back-end logic and UI programming of web applications designed to meet customers' specific needs related to handling their everyday agenda (C#, SQL; MSVS 2010, MSVS 2012, TFS, SQL Server 2005, SQL Server 2008 R2; Silverlight, WPF)
- 22.9.2014- Present
    - employer: hiDeSign s.r.o.
    - job title: Software Developer
    - responsibilities: same as in the previous job

Education and qualifications

- 1999 – 2007: **První české gymnázium v Karlových Varech (The First Czech Grammar School in Karlovy Vary)**
- 2007 – 2011
    - **Matematicko-fyzikální fakulta Univerzity Karlovy (Charles University in Prague: Faculty of Mathematics and Physics)**
    - school assignments
        1. C++ programming

            - online poker for the maximum of 10 players for one table, one table only, no artificial intelligence

        2. Practical Applications of XML Technologies

            - simplified business model for stock trading based on the actual stock market price implemented as a web service

        3. Programming

            - discrete simulation of an amusement park

        4. Database Applications (not completed)

            - simplified hospital information system (employees and patients registers, drug prescriptions records, etc.)

Professional orientation

- .NET applications programming in C#
- I prefer writting application logic to UI design.

- I would like to improve my skills in writting multi-threaded aplications.

- I would like to get familiar with and profficient in Entity Framework, MVC, WCF and ASP.NET.

- I would like to learn more about authentication and authorization in general and specifically in relation to web applications.

- I like writting scripts automating otherwise mind-numbing tasks. I prefer plain old unix bash to windows command shell, but I would like to learn Power Shell.

- Also I like writting complicated SQL scripts.

Language skills

- Czech: native speaker
- Slovak: native speaker
- English: advanced
- French: beginner

IT skills

- programming languages
  - C#
  - C++
  - Java
- development tools:
  - MS Visual Studio 2010, MS Visual Studio 2012
  - SQL Server Management Studio
  - Team Foundation Server
  - Eclipse
- databases:
  - SQL, T-SQL
  - MSSQL Server 2005, MSSQL 2008 R2
  - MySQL, PostgreSQL
- technologies:
  - UI: Silverlight, WPF (advanced, not expert knowledge)
  - web services (WCF): theoretical knowledge, back in my last job I used to debug some of them but had never actually designed one with the exception of the web service I created as a part of the school assignment I mentioned earlier.
  - Android mobile applications development
